FOSTER , AAMEE 04011980 F PI 01
FOSTER , ALEX 12222000 M CH 02

ADDRESS INFORMATION TO BE ENTERED ? : Y PRINT IVR NOTICE ? : N
    
```

When the edit displays, check the name carefully. Notice the Case Name is Aimee but the Client Name (middle of screen) shows Aamee. This is not the same person who was on the case before.

PF9 and check out the situation.

Look at CAP2 for the case number you are registering to.

```

FOSTER , ALEX 122200 HC CH IN 50

NEXT-->
    
```

Besides the difference in spelling of the name, the DOB is also different.

In this scenario, we are sure we have the right client. Notice the name and DOB match the information shown in the CAP2 on the previous page.

This is the right client for the case number and the edit still displays. The system cannot tell this is the same client because the client was OU on this case number back in 0103. See CURR MO column of the CAP2 screen.
