## 🔑 TLIP and CLPM Points

- The **TLIP** screen tracks the number of months an individual has received Temporary Assistance benefits. The TLIP screen automatically updates the TOTAL USED and AK TA fields to show the previous months that have been received.

    o **For example:** Tommy Jones' case is sitting in the system month of February 2003 and the TLIP for February displays 36 months used effective the previous month, January 2003.

- The TOTAL TA MTHS USED field on the **CLPM** screen updates after benefit authorization. Unlike the TLIP, issuance does not have to occur. This means if a case is sitting in the current system month of February 2003 and the February benefits have been authorized the CLPM is counting the February 2003 benefits and will display one more month than the TLIP counter.

    o **For example:** Tommy Jones' case is in the system month of February 2003 and the benefit for February has been authorized and will be issued with the regular run for February benefits. The CLPM will show 37 months used, because February's benefit is authorized.

✂   Cut here and keep this handy reference about the TLIP and CLPM!!

o The **X082** "Important Time Limit Notice" is mailed quarterly to all **open, pended and suspended** status households that have used more than **24 months**. For households with more than one adult, the count for the adult with the highest number of months used in excess of 24 will be displayed on the notice. By scheduling this notice job at the end of the month and mailing before Rollover, the number of months displayed on the X082 will include the month in which the notice will be received. Please note that after the END OF MONTH ROLLOVER, the TLIP counter will increase by one month to include the most recent issued benefit, and the CLPM will again display one more month than the TLIP because it includes the next authorized benefit.

o Please check out the SYS OPS web page www.dpasysops.hss.state.ak.us and our new Automated Help Desk functions. You can enter the TLIP information to request a change and send directly to the Help Desk.
